Access Control Terminal **mBIO-ST2**

mBio-ST2 can be used as a standalone access control reader by connecting a door lock, exit switch, alarm and door sensor to the relay contacts. The Wiegand IN and OUT ports can be used to connect 3rd party access control panels and peripherals. The mBio-ST2 also includes a USB port for offline data backup/management.

Fingerprint   **RFID Card**   **Access Control**   **USB Host**
